Abdullah Al Mujahid

Creative developer | CSE student

Dhaka, Bangladesh | mdjx137@gmail.com

GitHub / Mujahid137 | LinkedIn / Abdullah Al Mujahid

Computer Science & Engineering student at United International University, exploring responsive web interfaces, interactive experiences, and creative development. My work spans React applications, browser-based experiments, and object-oriented Java projects.

TECHNICAL SKILLS

Web: React, TypeScript, JavaScript, HTML, CSS
Interaction: Three.js, Framer Motion, responsive interface design
Foundations: Java, object-oriented programming, Git & GitHub

SELECTED PROJECTS

UniFind - Campus Lost & Found

React / Zustand / React Router / Framer Motion

Campus recovery showcase connecting item reports, filtered discovery, similarity matching, and ownership claims. The public demo uses fictional records and browser-local storage, with simulated login and administration.

Live demo / Source

KathiRun - Interactive Website

React / Next.js / Web animation / Responsive UI

An expressive website study combining kinetic typography, an interactive character, animated diagrams, expandable content, and responsive navigation.

Live website

BasaLagbe - HomeRent Frontend

HTML / Tailwind CSS / JavaScript

Dhaka rental-discovery frontend with combined area, budget, and property-type filters, client-side pagination, and modal interfaces. Uses generated demonstration listings.

Live demo / Source

EDUCATION

BSc in Computer Science & Engineering | 2024 - present
United International University, Dhaka

Higher Secondary Certificate - Science | 2020 - 2022
Notre Dame College, Dhaka
